

ANAPHYLAXIS & AUTOINJECTORS

Anaphylaxis is an extreme and potentially life-threatening allergic reaction that results in rapid chemical changes in the body. Autoinjectors offer fast-acting relief to somebody suffering an anaphylactic reaction. This short course will help learners to understand the risks of a severe allergic reaction and how to administer emergency treatment.

Areas covered

- Reactions to allergens
- Anaphylaxis
- An employee's responsibility
- Adrenaline autoinjectors
- Common traits

Who is it aimed at?

Any employee or manager working in an environment where an understanding of anaphylaxis and autoinjectors would be beneficial. This course can be used as a stand-alone module or included in an induction programme.
